

CALL FOR PAPERS

JULY 12-14, 2023

KOŠICE

SLOVAKIA

DISA 2023

CALL FOR PAPERS

You are heartily invited to send papers to symposium DISA 2023, which main aim is to provide a platform for a multidisciplinary discussion on the intelligence of real and virtual machines. Embodiment is no more required for intelligence and its evolution, since we entered the era of big data, Internet of Things and cloud services. Intelligence as a service appears to be the main challenge towards weak artificial intelligence and a world of many connected machines, fast wireless connectivity and remote brain concepts. The symposium should discuss and agree on guidelines of designing intelligent machines (physical and virtual) and their connection in the sense of Industry 4.0/Reality 2.0. The purpose of machine intelligence has always been to improve the quality of human life. Various fields such as robotics, embodied and non-embodied systems, and further can bring inspiration to applications useful for society. Digital Intelligence for Systems and Machines is a big Challenge of the Mankind to benefit from. Business models of these applications are crucial since the balance between human labor and unemployment is a decisive factor in our current chaotic and fast developing society.

 **Please, visit DISA 2023 official website at www.disa2023.org for more information.**

REGISTRATION FEES

DISA 2023, KOŠICE, SLOVAKIA

IEEE MEMBER OR STUDENT	NON-IEEE MEMBER	ACCOMPANYING PERSON
250€	280€	150€

ALL REGISTRATION FEES ARE INCLUDING VAT (VALUE ADDED TAX).

INVITATION

This is the first announcement and call for papers for 2nd Symposium on Digital Intelligence for Systems and Machines to be held on July 12-14, 2023, in Košice, Slovakia.

This Symposium is open to all. If you would like to attend, please register yourself at Symposium website by the deadline of April 2, 2023. If you are proposing to give a paper, please upload your paper written in English at DISA 2023 website. Even if you are not intending to give a paper, our two days of technical sessions, plus social meetings in Košice, Slovakia offers a highly rewarding opportunity for learning and networking with other professionals. International Symposium DISA 2023 strongly encourages and welcomes participation from countries all over the world.
